

Our Employees

Our Employees go from a range of Crew Members to Assistant General Manager. When the General Manager steps down, or he/she goes out, they will be able to present a form to their next boss, or take the place of the old General Manager. If they show a form to their next boss, they will be able to get a direct promotion to a General Manager if they so wish. Same with the Managers. MIT's(Manager's in Training) are not able to get this form, but will be able to get a raise. It is highly encourageable to get as far as you can. You are being paid to work. Not to sit.
